PROJECT THESIS:

1) Project # Streamlining Logistics at Mphasis   **Aug 2016** to **Current**

Project Name   : **Streamlining Logistics To Centralize Delivery**
Domain   : Delivery Model.
Client   : Mphasis.
Tools & Technologies   : Python/Django SqlAlchemy/ MySql/ AWS.
Role   : Software Developer

Project Description:
     logistics domain(https://www.mphasis.com/home/industries/other-industries/logistics.html)
enables us to provide you with solutions and services and help you achieve strategic and tactical
business goals and objectives. We have helped several logistics companies:
- Automate and integrate end-to-end processes across supply chains
- Improve operational agility
- Enhance customer satisfaction

Our track record of successfully executing 500+ projects involving more than 4,300 person
years of software project development gives us an edge over our competitors in the logistics
sub-domain. Our services cover all areas of carrier, forwarder and integrator processes –
express and cargo shipping, partner integration and agency operations.

Responsibilities:

- Discuss about the project and Understanding of Functional specifications.
- Design the Web Pages, Api EndPoints and user controls using Python, Django &
  Django REST Framework.
- Developed the Presentation layer and Data Access Layer by using the Django Models.
- Written test cases for the application.
- Preparing installation documents, Api Endpoints documentation and release notes.
- Deployment of Application in the Development and Production Environment.

Technologies and Products: Python, Django, MySql, AWS, Celery, Javascript, Git

2) Project #: Reporting Tool at Mahasis   **Jan 2016** to **Aug 2016**

Project Name   : **Internal Reporting Tool**
Domain   : Reporting Tool.
Client   : Mphasis.
Tools & Technologies   : Python / SqlAlchemy/ MySql/ AWS.
Role   : Jr. Software Developer

Project Description:

       We developed internal tools for orders management system, automatic logging and alerting system, Writing scripts for reporting system.

Technologies and Products: Python, SqlAlchemy, MySql, AWS, Git

Personal Details:

       Name   **: Ramana.**
       Father Name   **: Subba Reddy.**
       Email   **: jvramana0000@gmail.com**
       Contact   **: +91 9164 4251 85**
       Languages   **: English, Telugu.**

Declaration:

       I hereby declare that all the information given above is true to the Best of my knowledge.

                                    (RAMANA)
